Container Selection

- Sharps containers are available in a variety of different sizes. Starting at one quart working up to 28 gallon tub.
- Also available for your convenience is sharps wall mounts ideal for individual rooms in doctors office.
- All sharps containers are marked with a safety line to prevent overflow.
- When full all containers come equipped with air sealed lids to provide safety to employees and patients.
- Each container has a tracking number for exact locating of final destination.
- We will order special containers upon request.

Our Technicians

- All of our technicians are certified in handling medical waste.
- The technicians are responsible to make sure you receive the container size you request.
- Our technicians take their job to heart and make sure it is done according to the states rules and regulations.

Sharps Billing

- Sharps billing is done at the end of every month.
- The billing is accurate and the final destination of all sharps containers will be sent by mail with a bill as well.

Rules and Regulations

- The state rules and regulations are provided and updates are provided as the laws change. This will be placed in a binder for your own personal reference to be kept on site with your pickup documentation.

About Us

Family owned and operated, C.S.P. Medical Waste Solutions began in the summer of 1998 after dozen of sharps containers were dumped in Lake Erie. Our goal is to prevent the pollution of the earths water supply. Sense the beginning we have always stuck to the governments rules and regulations to properly pick up and dispose of medical waste.
